ABOUT

Full stack web developer with experience in React and NodeJS, I have made complete applications, joining frontend, backend and SQL databases. Eager to join a challenging company to build solutions together and exploit all my capabilities.

EDUCATION

HENRY Bootcamp

2021 – 2022

- Immersive Software Dev. Program.
- Curriculum: Full Stack JavaScript & Computer Science
- +800 hours of full-time training in current web development technologies, teamwork, dynamics of pair programming and promotion of soft skills.

UTE University

2015 – 2020

- B.S.E. in Engineering, November 2020. In-major GPA: 3.4.
- Undergraduate Coursework: Operating Systems; Databases; Algorithms; Applied Computation; Geographic information systems models; Engineering Entrepreneurship; Calculus III.

TECHNICAL EXPERIENCE

- **Full Stack Developer – “Recipes App” (2021).**
Development of a Single Page Application using React and Redux to handle global states for the FrontEnd. All applied styles are made with pure CSS without the use of external libraries. The SPA consumes API data (Spoonacular API) through a Backend developed in NodeJS using Express which adds new functionalities to the original API, it also uses PostgreSQL with Sequelize so that the user can save their own recipes.
- **Frontend Developer – “Movies App” (2021).**
Built React/Redux application that consumes API data (iMDB API), it lets you search for any movie and lets you save your favorites films.
- **Frontend Developer – “GOT App” (2021).**
Built React/Redux application that consumes API data (An API of Ice and Fire), it lets you create a new house of Game of Thrones using a controlled form.
